DETAILED ACTION

Reasons for Allowance

1. Claims 1 - 9 are allowed.

2. **Examiner's Statement of Reasons for Allowance:**

Applicant's invention relates to a windmill, and more specifically, to a method of operating a windmill power station.

The system has a windmill with associated controls for detecting sun's position and intensity, which is used to shut down the windmill operation.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant's invention differs from the prior art of record by the concept of monitoring the position and the intensity of the sun and shutting down windmill operation in relation to these criteria.

Examiner's search failed to find a windmill power system with operational features as disclosed and claimed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant(s) disclosure.
